## 1Summary

Full Stack Developer with **3+ years** sole-engineering a NAAC-A university's entire digital ecosystem — 9 live production platforms, **4,000–8,000 daily users**, **80% load-time reduction** (15s → 3s), and zero critical bugs over 12+ months. Shipped AI automation (N8N RAG agents), React dashboards, Laravel backends, and international conference platforms end-to-end. **Open to Full Stack / Frontend / SDE roles at FAANG, MNCs, and product companies.**

## 1Work Experience

### Teerthanker Mahaveer University, Moradabad

Full Stack Developer & Web Operations Lead

Feb 2023 – Present

- Sole-engineered the university's entire web ecosystem (HTML/CSS/Bootstrap/JS, Laravel/PHP/MySQL, React.js for SPA modules) serving **4,000–8,000 daily active users** across 9 production platforms with **zero critical bugs in 12+ months**.
- Slashed page load time **from 15s to 3s (80% reduction)** through performance auditing, asset compression, lazy loading, and Core Web Vitals optimisation — achieving **85+ Google PageSpeed scores**.
- Reduced manual content-update time by **~60%** by engineering structured admin CMS workflows, streamlining coordination across a **35+ person cross-functional team** spanning academics, marketing, IT, and compliance.
- Architected and deployed an **N8N-powered RAG AI counsellor agent** ([counsellor.tmu.ac.in](https://counsellor.tmu.ac.in)) that autonomously handled student admissions queries — eliminating **~3 hours/week** of manual effort and scaling throughput without additional headcount.
- Built and shipped **React.js + Node.js TMU One App Admin Dashboard** with role-based access, real-time data tables, and REST API integration tested via Postman.
- Executed full on-page SEO strategy (schema markup, meta optimisation, URL architecture, Core Web Vitals) across all sub-domains, measurably improving organic discoverability for 150+ academic pages.
- Led NAAC digital accreditation compliance — audited, updated, and delivered all regulatory web content across multiple departments on deadline, contributing to university's NAAC-A grade.
- Conducted functional, regression, and UI testing on every release cycle; maintained production stability for a platform serving thousands of students, staff, and hospital patients daily.

### Akash Innovations

Frontend Developer & Digital Marketing Associate

Nov 2023 – May 2025

- Designed and shipped company website in HTML/CSS/Bootstrap/JS — responsive, cross-browser compatible, and SEO-optimised — improving search rankings for primary target keywords.
- Integrated frontend components with backend systems ensuring seamless data flow and consistent UX across all pages.
- Scaled brand's Instagram & Facebook presence through strategic content calendars, creatives, and weekly performance analysis — driving measurable audience growth.

### KNOCIAL INDIA LIMITED, Gurugram

Associate Software Engineer

May 2022 – Dec 2022

- Delivered pixel-accurate, responsive UI components for B2B SaaS and e-commerce products by translating Figma wireframes into production-ready HTML/CSS/JS code.
- Built interactive internal dashboards (data tables, filters, real-time status displays), improving team operational visibility and reducing manual tracking effort.
- Integrated frontend with REST APIs for dynamic data rendering; ensured cross-browser compatibility across Chrome, Firefox, Safari, and Edge.
- Shipped all assigned features within two-week Agile/Scrum sprints; authored modular, reusable component libraries reducing duplicated UI logic across the codebase.

## 1Live Projects

### TMU One App — Admin Dashboard | [admin.app.tmu.ac.in](https://admin.app.tmu.ac.in)

React.js · Node.js · REST API · Postman

- Built a full-featured React.js SPA admin dashboard for TMU's mobile app — managing users, content, notifications, and app-wide configs with role-based access control.
- Designed and validated REST API contracts with Node.js backend using Postman; delivered real-time data tables and dynamic charts enabling ops team self-sufficiency.

### TMU AI Counsellor — RAG Automation Tool | [counsellor.tmu.ac.in](https://counsellor.tmu.ac.in)

N8N · RAG · AI Agents · Laravel ·

JavaScript

- Architected N8N-powered RAG AI agent pipeline autonomously resolving student counselling queries, course FAQs, and admissions questions — **eliminating ~3 hrs/week** of manual workload.

- Integrated with university CRM for real-time lead capture and automated follow-up routing; built escalation logic for seamless handoff to human agents on complex queries.

**TMU Official University Portal** | [tmu.ac.in](https://tmu.ac.in) *HTML · CSS · Bootstrap · JS · Laravel · MySQL · SEO*

- Sole-engineered flagship university platform serving **4,000–8,000 daily users**; reduced load time **from 15s to 3s**, achieved **85+ PageSpeed score**, zero critical production bugs in 12+ months.
- Implemented structured CMS workflows cutting update time by 60%; applied on-page SEO across 150+ programme pages improving organic search visibility.

**TMU Hospital WebApp** | [tmuhospital.com](https://tmuhospital.com) *HTML · CSS · Bootstrap · JS · Laravel · MySQL*

- Engineered patient-facing web platform for TMU’s NABH-accredited hospital — department listings, doctor profiles, appointment flows — built to healthcare-grade performance and uptime standards.

**SMART 2025 & 2026 — International Conference Platforms** | [smart2025.tmu.ac.in](https://smart2025.tmu.ac.in) · [smart2026.tmu.ac.in](https://smart2026.tmu.ac.in) *HTML · Bootstrap · JS · Laravel · Schema.org SEO*

- Designed and launched two international conference platforms with paper submission, delegate registration, and speaker profile modules; applied schema.org markup for Google Knowledge Panel eligibility.
- Delivered both on tight pre-conference deadlines with zero downtime during peak global registration traffic.

**NCMD 2025 · ICETCD 2026 — Conference Websites** | [ncmd2025.tmu.ac.in](https://ncmd2025.tmu.ac.in) · [icetcd2026.tmu.ac.in](https://icetcd2026.tmu.ac.in) *HTML · Bootstrap · JS · Laravel · SEO*

- Built two full international conference portals (dental & medical) with abstract submission, agenda, and registration flows; mobile-first, SEO-optimised for global delegate reach.

**TKCOE & TPSN — Academic Portals** | [tkcoe.tmu.ac.in](https://tkcoe.tmu.ac.in) · [tpsn.tmu.ac.in](https://tpsn.tmu.ac.in) *HTML · Bootstrap · JS · Laravel · SEO*

- Designed two NAAC-compliant academic department portals with consistent design system, faculty listings, programme pages, and on-page SEO.

**TMU Gym Admin — QA Lead** | [admin.gym.tmu.ac.in](https://admin.gym.tmu.ac.in) *Functional · Regression · UI Testing*

- Solely responsible for end-to-end QA of TMU Gym admin panel — wrote and executed functional, regression, and UI test cases; tracked bugs to resolution before each production release.

**1Technical Skills**

**1Certifications & Achievements**

- **Frontend Developer (React.js)** — Component-based UI development, hooks, state management
- **AI Tools & ChatGPT Workshop** — Applied LLM tools, prompt engineering, and workflow automation
- **Software Testing with Visual Studio** — Functional, regression, and UI testing methodologies
- **Mini Project Industrial Training** — Applied industry-level project certification
- **HackerRank** — Algorithm & SQL problem solving (active)

**1Languages**

**English** — Professional Working Proficiency | **Hindi** — Full Professional Proficiency
